I am an actor and artistic director at Theatre Madam Bach and I have been working with theater, music and art projects for more than 16 years. My main focus is theater and art projects for the youngest (age 0 - 6 years). I have produced performances and participated in workshops in New York, Bali, Sibiria and France and I am invited to more than 20 countries with performances and workshops. I am chairman of Theater Refleksion's board and a board member in TIO.

I do International workshops for children age 2- 6 years with the themes "Water" and "4 Seasons."

I am a musician and I have composed music for theatre, workshops and art projects for many years.

I find Assitej the best platform for communicating with artists all over the world and being a board member of Assitej Denmark gets me closer to the interesting part of the artistic work where we can work for cultural exchange. On the higher level I want to change the world into a better place and here childrens theater is a good way to start. I have given many children their first experience with art and I take this part very serious.
